PROFESSIONAL EXPERIENCE

Web and Mobile Developer | Ecobank Nigeria 2025 – Present

- Develop a mobile-first internal banking operations application with React Native and Next.js, integrated with Node.js and Express services.
- Improved transaction completion speed by 30% through workflow and UI refinements and Redux state management.

Lead Engineer | Devnnova (Contract · Remote) Aug 2023 – Present

- Lead engineering for Entrant, a relocation and newcomer-support platform made up of a React Native (Expo) mobile app, a Next.js web platform, a Next.js admin portal and a NestJS backend.
- Led the consolidation of a legacy Java/Spring Boot backend into a single NestJS 11 + TypeScript + PostgreSQL service, keeping API contracts compatible with the live mobile app.
- Designed a modular backend of 40+ feature modules (auth, messaging, real-time calls, community, jobs, travel planner, scam shield, moderation, analytics, audit) using TypeORM migrations, Redis, BullMQ queues and Socket.io.
- Built the admin portal with role-based permissions, content and media moderation, analytics and country-specific content management for the mobile app.
- Integrated Stripe payments, Firebase push notifications, Google and Apple sign-in, AWS S3 storage and Sentry monitoring.

Full-Stack Developer | TechVerse (digital agency) Jan 2022 – Aug 2023

- Delivered fintech and eCommerce products for agency clients, including AltBank, Yummeals and AltDrive, across Laravel, React, Next.js and Vue.js.
- Built Altmobile, AltBank's device-financing platform: Laravel 11 + Inertia React with a Filament admin, multi-tenor pricing, KYC document handling with encrypted PII, and an asynchronous credit-check pipeline.
- Built a partner-facing subscription JSON API with API-key authentication, and consolidated the Laravel API reference and Postman collection for the team.
- Integrated Paystack and Flutterwave payments, referral features and delivery-coverage APIs to improve checkout flows.

UI/UX Designer | Hephzibah Edutech 2020 – 2022

- Designed a Figma CRM dashboard for student enrollment and management; user research and interface improvements reduced administrative workload by 40%.
- Worked with developers on the React.js and Tailwind CSS implementation, connecting design decisions to shipped product flows.
